

GFR3100 Heated Safety Station with Eyewash, Top Inlet, Rated for Class I, Division 2 Environment

Application: Electric heat-traced stations prevent freezing even in extreme conditions. Thermostat regulated units are heated by self-limiting heat-tracing cable wrapped around internal pipe. Units are intended for cold weather use down to -40°F. See 'Tempering Valves' section to ensure tepid water compliance with ANSI Z358.1-2014.

Heating Cable: Self-regulated with external termination guards. Thermostat activates when internal piping temperature falls below 75°F. FM, UL, and CSA approved for Class I, Division 2, Groups B, C, and D.

Electrical System: Unit is fully wired at factory. Junction box and components rated for Class I, Division 2, Groups B, C, and D. Requires 120 VAC single phase power supply.

Jacket/Insulation: UV-resistant orange ABS plastic with polyethylene foam insulation. Jacket sections secured with removable stainless steel screws for easy maintenance.

Shower Head: 10" diameter orange ABS plastic with 20 GPM flow control.

Shower Valve: 1" IPS brass stay-open ball valve. US-made with brass ball and Teflon® seals. Includes stainless steel actuating arm and 29" stainless steel pull rod.

Spray Head Assembly: Freeze-resistant with float-off dust covers and internal flow control.

Eyewash Valve: 1/2" IPS brass three-way self-draining stay-open ball valve. US-made with brass ball and Teflon® seals. Includes 1/2" NPT port to drain water from spray heads after use.

Pipe and Fittings: Schedule 40 galvanized steel.

Supply: 1-1/4" NPT female top inlet.

Sign: ANSI-compliant identification sign.

Quality Assurance: Factory tested prior to shipment. Ships fully assembled and crated.

Available Options

- SSH** Stainless steel shower head.
- HV** 240 volt heat tracing.
- TL** Heat trace indicator light.
- SP** Scald protection valve.
- FP** Freeze protection valve.
- ALG** Green area light.
- PS** Magnetically activated proximity (MAP) switch.

Alarm Options

Specify desired alarm using fourth digit of model number, as follows:

- 0** No alarm
- 1** Single pole, double throw flow switch for remote sensing capability
- 3** Alarm horn and remote sensing capability
- 5** Light and remote sensing capability
- 7** Alarm horn, light and remote sensing capability

HEAT TRACED POWER CONNECTION BOX

DETAIL "A"
UNIVERSAL FLOOR FLANGE

Ø7/16" MOUNTING SLOTS
ON 7-5/8" BOLT CIRCLE

NOTES:

1. FREEZE RESISTANT SPRAY HEAD ASSEMBLY HAS AN INTERNAL FLOW CONTROL
2. DESIGNED FOR USE IN A CLASS I, DIVISION 2, GROUPS B, C, & D ENVIRONMENT.
3. PEAK HEAT TRACE POWER CONSUMPTION IS 75 WATTS.
4. IN ORDER TO MEET CLASS I, DIVISION 2 REQUIREMENTS, APPROVED CONDUIT AND FITTINGS MUST BE USED.
ALL THREADED ELECTRICAL CONNECTIONS MUST HAVE HAZARDOUS LOCATION RATED SEALANT APPLIED TO THREADS.
