## ***Reliable and Compact Multi-Function Centrifuges for Standard Life Science Separation Applications***

Frontier 5706 is a small benchtop multi-function centrifuge ideal for a multitude of spin-down applications. Characterized by reliability, various safety features, the ability to accommodate test tubes of various sizes and intuitive operation, Frontier 5706 was built to meet the basic need for liquid separation in the life sciences.

### ***Unique Features:***

- With an easy-to-turn control knob, a large LCD display and the capabilities to set and view both speed in rpm and g-force, enjoy precise results and enhanced functionality with extremely simple operation.
- Frontier 5706 can accommodate all standard tube sizes from 1.5 ml to 50 ml, providing centrifugation for a wide variety of applications. It also has a large capacity, and can hold six 50 ml tubes or twelve 15 ml tubes during one process.
- Among Frontier 5706's safety attributes are sturdy mechanical lid with locking system and a rotor imbalance sensor that stops the centrifuge if the rotors become imbalanced or sudden shock occurs, protecting the operator from being injured by the high-speed spinning rotors.
